

Dear Hiring Manager,

I am writing to express my interest in the Part-Time Robotics Teacher position at your institution. I am currently an undergraduate student majoring in Robotics and Artificial Intelligence Engineering. Through my academic projects, I have gained hands-on experience in robotics, embedded systems, Arduino, ESP32, sensor integration, and IoT development.

I enjoy sharing knowledge and helping others understand technical concepts through practical activities. I believe that learning robotics becomes more engaging when students are encouraged to explore, build, and solve problems independently. I am committed to creating a positive, interactive, and enjoyable learning environment for every student.

In addition to my technical background, I am responsible, adaptable, and eager to continue learning. I am confident that my passion for robotics and teaching would allow me to make a valuable contribution to your team.

Thank you for considering my application. I have attached my CV for your review. I would appreciate the opportunity to discuss my qualifications further in an interview.

Yours sincerely,

Aqila Restu Amrozi
