Orsted Education

Surabaya, East Java

Subject: Application for Part-Time Science Extracurricular Teacher

Dear Hiring Committee,

I am writing to express my strong interest in the Part-Time Science Extracurricular Teacher position at Orsted Education, as advertised. As a current Undergraduate Physics student at Institut Teknologi Sepuluh Nopember (ITS) with a recent Semester GPA of 3.55/4.00, I have a deep passion for foundational sciences, experimental physics, and computational modeling. I am highly motivated to channel this knowledge into creative and accessible science activities for elementary school students.

Throughout my academic journey, I have developed a strong technical foundation in handling complex experimental equipment and data interpretation. Beyond my scientific background, my extensive leadership and communication experience profoundly shape my capability to mentor young children. Serving as a certified Student Management Skills Training Guide has sharpened my ability to design engaging pedagogical curriculum, simplify complex conceptual topics, and manage group dynamics under dynamic environments. Furthermore, my consistent experience as a campus Master of Ceremony (MC) equips me with energetic and persuasive public speaking skills, enabling me to spark curiosity and maintain an interactive, vibrant classroom setting.

Orsted Education's commitment to exploring students' potential and fostering national-international achievements strongly resonates with my personal mission. I am confident that my technical physics insights, coupled with an interactive and structured teaching approach, will allow me to deliver impactful, fun science experiments that motivate elementary students to love science.

Thank you for your time and consideration. I have attached my CV, transcript, and other required documents for your review. I look forward to the possibility of discussing how my skills and background meet the needs of Orsted Education.

Sincerely,
